Hello and welcome to yet a new edition of Numbers & Oddities. The addition of a Utility Stations section was not a success. Therefore I will now only list satellite communications below 500 MHz and maybe every now and then other news.

I'd like to thank all the contributors to N&O #109. Your input is greatly appreciated.

Remarks:

- Extreme transmitter problems made it hard to monitor E03s new IDs on Sept 15. A strong hum on all three freqs fought against the voice information. (Al)

We received the following transcript, jotted down by Alpha Vax. Thanks OM.

::: RUSSIAN, CIS, UKRAINIAN MILITARY SSB & CW STATIONS (including M32)

The Russian and Ukrainian forces had various exercises in September which resulted in increased HF activity.

82 Hz (!) Trond reported on 5 Sept that the Russian ELF transmitter Zevs on 82Hz has been continuously on the air for the last 24 hours with a message every 4 hour.

18.1 Russian navy via Vileyka Radio Centre, Belarus // 20.2 kHz

Many messages, including a number of flash messages.
